

Prem-I-Air 9000 BTU DC Inverter Window Air Conditioner with Remote Control & Timer

The Prem-I-Air Window Unit Air Conditioner features inverter technology for vastly reduced running costs and the latest Eco friendly R32 refrigerant gas for maximum cooling. The unit provides an impressive 9000 BTU of cooling capacity in a compact design and is ideal for most domestic and commercial room spaces up to 550 Sq ft; including offices, bedrooms, lounges, storage rooms and general workshops. The unit is particularly well suited to mobile homes and prefabricated/temporary buildings where internal space is at a premium. This Air Conditioner includes motorised louvres, multiple fan speeds, timer, temperature set and comes with a full function easy to use remote control.

Features:

- Fitted with the latest Eco friendly R32 refrigerant gas
- DC Inverter technology for reduced running costs
- Low maintenance with washable antibacterial filter
- Fresh air intake and motorised louvres
- Easy to fit to Walls or Windows with Sliding Chassis
- Remote control with timer

PRODUCT SPECIFICATION

Depth (mm).....	710	Exhaust hose length (m).....	4.55/4.2
Height (mm).....	560	Fan Speeds	3
Width (mm)	560	Frequency (Hz)	50
Product Dimensions (mm).....	560x560x710	Input power cool (W)	782
Net weight (kg)	43	Noise level (dB(A))	50/48/46
Airflow volume max. (m ³ /h).....	400	Operating temperatures (cooling).....	16-43
Airflow volume max. (m ³ /min).....	7	Operating temperatures (°C)	16-43
Colour.....	White	Overall Width (mm).....	560
Configuration.....	inverter/9000Btu/cooling only	Refrigerant.....	R32
Control panel.....	Electric Control Panel	Remote control.....	YES
Cooling capacity (BTU/h)	9212	SEER	5.2
Cooling capacity (kW)	2700	Self evaporating model	YES
Dehumidifying capacity max. (L/day)	24	Size.....	560x560x710
Energy rating	A	Timer (hours).....	YES
Exhaust hose diameter (mm).....	6	Voltage (V).....	220-240
